Smart Remote

A Modern Solution for Smarter Cooking & Entertainment

presented by

Dela Cruz, Eunice

De Silva, Irene

Encarnacion, Dan Mark

De Guzman, Chezka

Castro, Stacey

Guce, Angelyn

Problems

- **Control Overload** — Too many separate controls for stove, TV, and apps
- **Safety Risks** — Safety concerns with children accessing stove controls
- **Security Concerns** — Difficulty monitoring cooking while multitasking
- **Security Concerns** — Need for convenience and integration

TV Control

Channels, volume, brightness, apps.

Stove Control

Modes, burners, temperature, timer

Secure Transactions, Peace of Mind

See what’s playing even from afar

Solution

One Remote. Multiple Appliances.

Project Proposal

Control Chaos

highlights the messy, scattered controls.

Safety Gap

emphasizes the risk of children accessing stove controls.

Fragmented Living

captures the overall disjointed experience of managing appliances.

Accessibility & Safety

- **Child Safety**
  Password-protected stove access
- **Safety Button**
  Prevents accidental stove activation
- **Voice Recognition**
  Easier for elderly users
- **Capacitive Touch Strip**
  Simple volume & brightness control

Charging port

Features

Smart Sync

Automatically detects and pairs with nearby smart appliances (TV, stove, lights, speakers) without manual setup.

Adaptive Touch Strip

Side strip adjusts not only volume and brightness, but also scrolls through menus and modes with haptic feedback.

Eco Mode

Optimizes power usage by dimming the display, lowering brightness, and conserving battery when idle.

Features

Multi-Task Monitoring

Lets you view TV playback, stove timer, and Wi-Fi status simultaneously on the mini screen.

Child Lock Security

Enhanced password protection for stove functions, ensuring safe use around kids.

Quick Charge USB-C

Fast charging port with LED indicator, giving hours of use in just minutes.

Customizable Shortcuts

Assign apps, stove modes, or favorite channels to shortcut buttons for instant access.

Why Our Universal Smart Remote Is Different

- Multi-Device Control
- Touchscreen Interface
- Smart Modes
- Voice Recognition
- Adaptive Touch Strip
- Child Safety Lock
- Quick Charge USB-C
- Customizable Shortcuts

CONCLUSION

One remote. Endless control. A smarter living.

Our Universal Smart Remote combines TV entertainment and stove management into one sleek, intelligent device. With multi-device control, voice recognition, and the adaptive touch strip, it makes multitasking effortless.

- All-in-one control: Manage appliances, apps, and cooking from one remote.
- Smart & intuitive: Dynamic interface with customizable shortcuts and modes.
- Timers & security: Built-in stove timer, child lock, and password protection.
- Strong connectivity: Wi-Fi, Bluetooth, and USB-C fast charging.
- Accessible for all: Voice commands, haptic feedback, and ergonomic design.
- Reliable & efficient: Durable build with long-lasting rechargeable battery.

Smarter living, made simple. Control today. Enjoy tomorrow.
